

OmegaFi's Officer Purchasing Visa® Prepaid Card

The smart, safe and convenient way for chapters to spend!

- Track organization expenses
- Control spending and budgets
- Add or remove funds in real-time
- Eliminate hassle and potential fraud
- Provide full transparency

At long last, chapters and house corporations have a convenient, safe alternative to writing a check or paying with cash when making purchases. Introducing the OmegaFi® Officer Purchasing Visa® Prepaid Card.

No longer do you need to worry about sending an officer to the store with cash and managing the change that returns. You can now identify, track and report where spending occurs in a much more transparent and secure way. Record-keeping and reporting becomes easier for the treasurer since card spending integrates with the OmegaFi financial management system, Vault.

Spending with an Officer Purchasing Card provides chapters and house corporations with more accurate information about their expenses – strengthening budget controls and creating a history to help with yearly financial planning and reporting to the IRS.

With OmegaFi's Officer Purchasing Cards, officers and advisors have the freedom and convenience to spend without the risk of misplacing cash, losing a receipt or breaking the budget.

Always innovating... and helping fraternities and sororities reimagine how to strengthen and manage their business operations, the new Officer Purchasing Card expands the robust accounts payable tools and features currently available from OmegaFi.
