

Worry Free Tees by The Graphic Cow

OmegaFi's **Worry Free Tee** option with The Graphic Cow makes it easy to design & order a great t-shirt & share the information with your members.

Members view and order t-shirts via their myOmegaFi accounts. They pay for the t-shirts using any of OmegaFi's convenient payment options. The Graphic Cow's great art, excellent quality and super fast processing, combined with OmegaFi's ability to allow members to order and pay for their t-shirts via myOmegaFi, makes your t-shirt experience truly **"WORRY FREE"**!

Here's how it works:

- The t-shirt chair establishes an account with The Graphic Cow, then designs and approves your chapter's custom t-shirt. The Graphic Cow immediately assigns a work order number for the project. (A minimum order of 25 t-shirts is required.)
- A Vault user with Billing and Collections access, enters the web order number and contact information into Vault. They also indicate the order closing date and the price members will pay per t-shirt.
- Members are notified via email and on myOmegaFi that a t-shirt is available for order. They can view an image of the t-shirt before placing their order online.
- When the order is closed, The Graphic Cow receives the information for processing. Charges automatically assess to members' accounts in accordance with their individual orders.
- The Graphic Cow processes the t-shirt order promptly and accurately.
- The Graphic Cow allows deferred payment to coincide with the chapter's unique billing cycles. The due date of the next scheduled billing cycle is the date by which members pay for their t-shirts.
- On behalf of the chapter, OmegaFi remits payment to The Graphic Cow as soon as funds are available following the due date.
- T-shirts arrive to you neatly "cowtagged" in individual bags with each member's name clearly labeled on the outside.

For a **"worry free"** experience with your next t-shirt, design and order it with The Graphic Cow on Vault!
